Event Planner

- As an event planner, I can create calendar events that features time, day, reminders, location, and descriptions of the event that will transpire in the future.

- As an event planner, I can create recurring events that will happen daily/weekly

- As an event planner, I can assure you that the events that I create are valid.

- As an event planner, I can create an easy to use user interface that is friendly.

- As an event planner, I can create an event file in matters of seconds.
